## Dealership

### Service know-how for Dealerships

Capricorn Service Data is an exclusive Member benefit providing instant access to the most comprehensive range of online service information for thousands of vehicles.

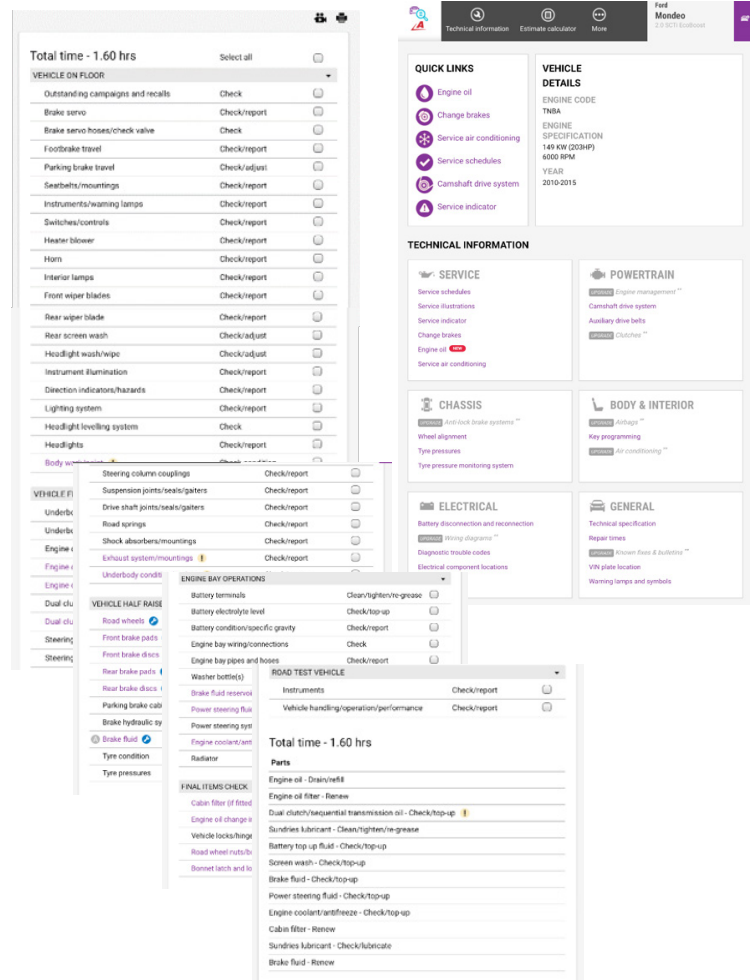

Start using Capricorn Service Data today to access the following information that is relevant to Dealerships.

### Used Car Information

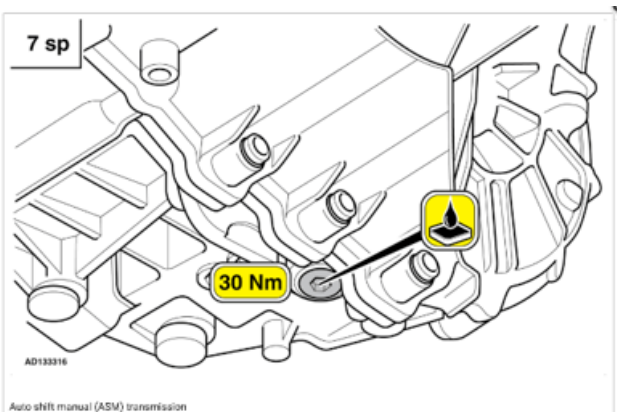

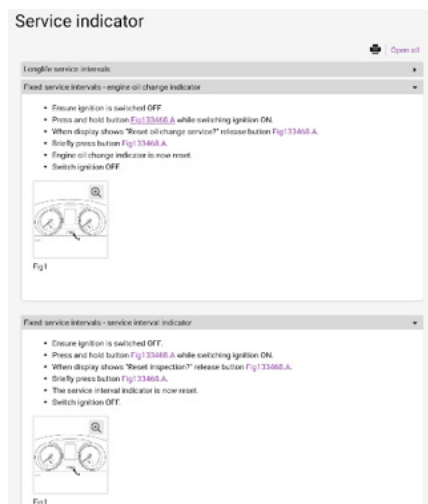

Capricorn Service Data provides technical service and maintenance information valuable for your Used Car Departments. This includes information to prepare used vehicles and offer ongoing aftersales servicing for all vehicle makes.

### Fleet Servicing

Capricorn Service Data allows Dealerships to offer their Fleet customers all make servicing to the manufacturer's log book requirements.

The screenshot displays a comprehensive service checklist for a vehicle. The 'VEHICLE ON FLOOR' section includes items like 'Outstanding campaigns and recalls', 'Brake servo', 'Footbrake travel', and 'Parking brake travel'. The 'VEHICLE HALF RAISE' section covers 'Road wheels', 'Front brake pads', and 'Rear brake discs'. The 'ENGINE BAY OPERATIONS' section includes 'Battery terminals', 'Battery electrolyte level', and 'Engine bay wiring/connections'. The 'ROAD TEST VEHICLE' section includes 'Instruments' and 'Vehicle handling/operation/performance'. A 'TOTAL TIME - 1.60 hrs' is indicated at the top. On the right, there are sections for 'VEHICLE DETAILS' (ENGINE CODE, ENGINE SPECIFICATION, YEAR), 'TECHNICAL INFORMATION' (SERVICE, POWERTRAIN, CHASSIS, BODY & INTERIOR, ELECTRICAL, GENERAL), and 'QUICK LINKS' (Engine oil, Change brakes, Service air conditioning, Service schedules, Camshaft drive system, Service indicator).

The screenshot shows the 'Service indicator' section, which provides instructions for resetting the service indicator. It includes two sections: 'Fixed service intervals - engine oil change indicator' and 'Fixed service intervals - service interval indicator'. Both sections list steps such as 'Ensure ignition is switched OFF', 'Press and hold button Fig 13366.A while switching ignition ON', and 'When display shows "Reset inspection?" release button Fig 13366.A'. It also includes a small image of the dashboard instrument cluster labeled 'Fig 1'.

Engine

- Engine management - Ignition
- Engine management - Fuel

Cooling system

- Radiator, fan & intercooler
- Pump & drive

	Hours
Remove and install Water pump	2.50
Remove and install Electric water pump - AT	0.70

Header tank & hoses

- Exhaust system
- Clutch & controls
- Manual transmission
- Final drive, shaft & axles
- Suspension

**Warning message for vehicles with height adjustable suspension**

The model you have selected may be fitted with height adjustable suspension. To prevent costly suspension damage, 'Jacking mode' MUST be activated before raising the vehicle.

**SERVICE OPERATIONS**

For detailed instructions refer to 'Jacking mode'.

**PRECAUTIONS**

When raising the vehicle:

- Special tools or blocks may be required to avoid damage to bodywork or underside of vehicle.
- Ensure vehicle remains stable when removing heavy components on a wheel free lift.
